-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Mase.

The patent to Mase discloses an embroidering device M, Fig. 5 which may be connected to a network 61, Fig. 9A, said embroidering device comprising: a means 201, etc. to be connected to said network, a means 15, Fig. 2 for reading out information of an embroidery pattern to be stitched from an optional server 40, Fig. 9A included in said network, and a means M, Fig. 5 for performing an embroidery stitching operation in accordance with said information. Mase discloses means for performing the various functions recited above utilizing structure that corresponds to the structure described in the specification of the instant application. In this regard note that the means for reading out information of an embroidery pattern to be stitched from an optional server included in said network is described in the specification of the instant application as being a personal computer that downloads pattern data of a pattern code from the server (see page 5, lines 21-22 of the specification of the instant application). Likewise Mase discloses a personal computer 15, Fig. 2 that downloads pattern data of a pattern code from a server 40, Fig. 9A included in a network 61. Also the means for performing an embroidery stitching operation is described in the specification of the instant application as being an embroidering stitching sewing machine. Likewise Mase

Art Unit: 3765

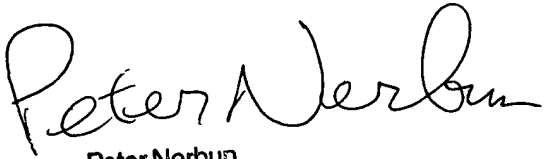

discloses a means for performing an embroidery stitching operation comprising an embroidering stitching sewing machine M, Fig. 5.
